**For Immediate Release****November 10, 2009****Crown Crafts, Inc. Reports Results for Second Quarter of Fiscal Year 2010**

Gonzales, Louisiana — Crown Crafts, Inc. (the “Company”) (NASDAQ-CM: CRWS) today reported net income for the second quarter of fiscal year 2010, which ended September 27, 2009.

Net income for the quarter was \$803,000, or \$0.08 per diluted share, on net sales of \$21.7 million, compared to net income for the second quarter of fiscal year 2009 of \$1,035,000, or \$0.11 per diluted share, on net sales of \$23.8 million.

“We are responding to the challenging economic environment by aggressively managing our cash flow,” commented E. Randall Chestnut, Chairman, President and Chief Executive Officer of the Company. “For example, we are keeping a tight control on our inventory levels, which declined by \$2.9 million during the second quarter. We are also pleased with the success of our efforts directed at the integration of the product development, sourcing and distribution operations of Neat Solutions, which we purchased early in the quarter. However, weakness in retail demand in our core business persists, and our customers remain reluctant to rebuild their inventory levels. We are confident that we are well positioned to benefit as the economy recovers. The Company’s EBITDA (earnings before interest, taxes, depreciation and amortization) for the quarter was \$2.0 million, compared to EBITDA of \$2.5 million for the second quarter of fiscal year 2009,” Mr. Chestnut continued.

In addition to the Company's presentation of its results of operations in conformity with accounting principles generally accepted in the United States of America ("GAAP"), the Company is also presenting EBITDA, which is a measure of the Company's performance that is not determined in accordance with GAAP. The Company uses EBITDA as an internal measure to monitor the Company's operating results and cash flow and to evaluate the performance of its businesses. The Company believes that the presentation of EBITDA provides useful information to readers and is an important indicator of the Company's ability to generate cash sufficient to reduce debt, make strategic investments, meet capital expenditures and working capital requirements and otherwise meet its obligations as they become due. The items excluded from EBITDA are significant components in understanding and assessing the Company's financial performance. EBITDA is provided as supplemental information and should be considered in addition to, and not as a substitute for, such GAAP measures as net income, cash flow provided by or used in operating, investing or financing activities, and other measures of financial performance and liquidity reported in accordance with GAAP. Because EBITDA is not a measure determined in accordance with GAAP, companies are free to calculate it in varying ways. Therefore, EBITDA, as presented by the Company, may not be comparable to similarly titled measures of other companies.
