## Crown Crafts Reports Results for Fiscal 2015 Fourth Quarter and Full Year

- Net sales up 8.7% for the fourth quarter and 5.8% for the full year
- Fiscal 2015 adjusted net income up 8.3% for the full year
- Full-year adjusted EBITDA increases 6.3% from last year and reaches 12.9% of net sales
- Full-year adjusted diluted earnings per share of \$0.62 up from last year's record \$0.59 diluted earnings per share

Gonzales, Louisiana – Crown Crafts, Inc. (NASDAQ-CM: CRWS) today reported results for the fiscal fourth quarter and full year ended March 29, 2015.

"Fiscal 2015 was another strong year for Crown Crafts as our adjusted EBITDA reached a milestone of 12.9% of net sales for the year. Our strong performance is a result of a number of factors, including expanded business placements which solidified our position as a market leader. Once again, we finished the year with no debt, and our cash balances increased to \$1.8 million from \$560,000 at the end of fiscal year 2014. We are proud of our performance, and we believe our shareholders value the long-term consistency we provide," said E. Randall Chestnut, Chairman, President and Chief Executive Officer.

## **Financial Results**

Net income for the fourth quarter of fiscal 2015 was \$2.1 million, or \$0.21 per diluted share, on net sales of \$26.1 million, compared with net income of \$2.0 million, or \$0.21 per diluted share, on net sales of \$24.0 million for the fourth quarter of fiscal 2014.

Net income for the full year of fiscal 2015 was \$5.7 million, or \$0.57 per diluted share, on net sales of \$86.0 million, compared with net income of \$5.8 million, or \$0.59 per diluted share, on net sales of \$81.3 million for fiscal 2014. Fiscal 2015 net income was impacted by an after-tax charge of \$530,000 in the second quarter related to the settlement of a lawsuit. Excluding that charge, net income for fiscal 2015 would have been \$6.2 million, or \$0.62 per diluted share, up 8.3% from the year earlier. Adjusted EBITDA increased 6.3% to \$11.1 million for fiscal 2015, compared with \$10.4 million for the prior year. As a percentage of net sales, adjusted EBITDA rose to 12.9% from 12.8% a year ago.

#### Use of Non-GAAP Financial Information

In addition to the Company's presentation of its financial position and results of operations in conformity with accounting principles generally accepted in the United States ("GAAP"), the Company has also presented certain financial measures which are not determined in accordance with GAAP. Specifically, with respect to the financial results for the fiscal year ended March 29, 2015, the Company has disclosed its earnings before interest, taxes, depreciation and amortization ("EBITDA") and has further disclosed the after-tax impact of a charge associated with the settlement of a lawsuit (the "Settlement Charge"), as well as a presentation of what net income, net income per diluted share and EBITDA would have been if the Settlement Charge had not been recognized (to arrive at "adjusted net income", "adjusted net income per diluted share" and "adjusted EBITDA", respectively). The Company believes that the presentation of these non-GAAP financial measures is useful as an important indicator of the Company's ability to generate cash sufficient to service its debt, declare and pay dividends, make strategic investments, meet capital expenditures and working capital requirements and otherwise meet its obligations as they become due in future reporting periods. The Settlement Charge is a significant component in an understanding and assessment of the Company's results of operations for the fiscal year ended March 29, 2015. The Company uses these non-GAAP financial measures internally to monitor its operating results and to evaluate the performance of its businesses. These non-GAAP financial measures are provided as supplemental information and should be considered in addition to, and not as a substitute for, the Company's GAAP measures, including its net income and cash flow provided by or used in operating, investing or financing activities, and other measures of financial position or results of operations reported in accordance with GAAP. Because these non-GAAP financial measures are not calculated in accordance with GAAP, another company using the same GAAP financial information could possibly arrive at a different calculation of these non-GAAP financial measures. Therefore, the non-GAAP financial measures as presented by the Company may not be comparable to similarly-titled measures that may be presented by another company.
