
UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

FORM 10-Q

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended **October 1, 2006**

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File No. **1-7604**

CROWN CRAFTS, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

58-0678148

(I.R.S. Employer Identification No.)

916 South Burnside Avenue, Gonzales, Louisiana 70737

(Address of principal executive offices)

(225) 647-9100

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-Accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of common stock, \$0.01 par value, of the registrant outstanding as of October 1, 2006 was 9,934,188.

CROWN CRAFTS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
AT AND FOR THE THREE AND SIX-MONTH PERIODS ENDED OCTOBER 1, 2006 AND OCTOBER 2, 2005

1. *Basis of Presentation:* The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, such interim consolidated financial statements contain all adjustments necessary to present fairly the financial position of Crown Crafts, Inc. (the "Company") as of October 1, 2006 and the results of its operations and cash flows for the periods presented. Such adjustments include normal recurring accruals. Operating results for the three and six-month periods ended October 1, 2006 are not necessarily indicative of the results that may be expected for the year ending April 1, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in the annual report on Form 10-K for the year ended April 2, 2006 of the Company.

Revenue Recognition: Sales are recorded when goods are shipped to customers and are reported net of allowances for estimated returns and allowances in the consolidated statement of income. Allowances for returns are estimated based on historical rates. Allowances for returns, advertising allowances, warehouse allowances and volume rebates are netted against sales. These allowances are recorded commensurate with sales activity and the cost of such allowances is netted against sales in reporting the results of operations. Shipping and handling costs, net of amounts reimbursed by customers, are relatively insignificant and are included in net sales.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates are made with respect to the allowances related to accounts receivable for customer deductions for returns, allowances, and disputes. The Company has a certain amount of discontinued and irregular raw materials and finished goods which necessitate the establishment of inventory reserves which are highly subjective. Actual results could differ from those estimates.

Segment and Related Information: The Company operates primarily in one principal segment, infant and juvenile products. These products consist of infant bedding, bibs and soft goods.

Impairment of Long-lived Assets, Identifiable Intangibles and Goodwill: The Company reviews for impairment of long-lived assets and certain identifiable intangibles whenever events or changes in circumstances indicate that the carrying amount of any asset may not be recoverable. In the event of impairment, the asset is written down to its fair market value. Assets to be disposed of, if any, are recorded at the lower of net book value or fair market value less cost to sell at the date management commits to a plan of disposal and are classified as assets held for sale on the consolidated balance sheet.

Goodwill, which represents the unamortized excess of purchase price over fair value of net identifiable assets acquired in business combinations, was amortized through March 31, 2002 using the straight-line method over periods of up to 30 years. The Company discontinued amortization of goodwill effective April 1, 2002. The Company reviews the carrying value of goodwill annually and sooner if facts and circumstances suggest that the asset may be impaired. Impairment of goodwill and write-downs, if any, are measured based on estimates of future cash flows. Goodwill is stated net of accumulated amortization of \$6.4 million and \$6.3 million at October 1, 2006 and April 2, 2006, respectively. The Company performed fair value based impairment tests on its goodwill in accordance with Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets". With the exception of goodwill related to Churchill Weavers, Inc. ("Churchill"), the Company determined that the fair value exceeded the recorded value at April 4, 2005 and April 3, 2006. Churchill's goodwill of \$90,000 was written off in June 2006 due to its decline in sales volume and profitability in recent years which were indicative of an impairment.

Table of Contents

Provision for Income Taxes: The provisions for income taxes include all currently payable federal, state and local taxes that are based upon the Company's taxable income and the change during the fiscal year in net deferred income tax assets and liabilities. The Company provides for deferred income taxes based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates that will be in effect when the differences are expected to reverse. For the three and six-month periods ended October 2, 2005, deferred tax assets were offset by a valuation allowance as available evidence did not indicate that the assets would be realized. In the fourth quarter of fiscal 2006, the Company determined that, due to taxable earnings generated in recent years, it is more likely than not that the benefit would be realized prior to the expiration of its net operating loss carryforward and consequently the valuation account was removed. As a result of the removal of the deferred tax valuation allowance, the Company's income tax expense in periods subsequent to the third quarter of fiscal year 2006 will include federal as well as state and local income taxes.

Allowances Against Accounts Receivable: The Company's allowances against accounts receivable are primarily contractually agreed upon deductions for items such as advertising and warehouse allowances and volume rebates. These deductions are recorded throughout the year commensurate with sales activity. Funding of the majority of the Company's allowances occurs on a per-invoice basis.

The allowances for customer deductions, which are netted against accounts receivable in the consolidated balance sheets, consist of agreed upon advertising support, markdowns and warehouse and other allowances. Consistent with the guidance provided in EITF 01-9, all such allowances are recorded as direct offsets to sales and such costs are accrued commensurate with sales activities. When a customer requests deductions, the allowances are reduced to reflect such payments.

The Company analyzes the components of the allowances for customer deductions monthly and adjusts the allowances to the appropriate levels. The timing of the customer initiated funding requests for advertising support can cause the net balance in the allowance account to fluctuate from period to period. The timing of such funding requests should have no impact on the consolidated statements of income since such costs are accrued commensurate with sales activity.

Royalty Payments: The Company has entered into agreements that provide for royalty payments based on a percentage of sales with certain minimum guaranteed amounts. These royalty amounts are accrued based upon historical sales rates adjusted for current sales trends by customers. Total royalty expenses included in cost of sales amounted to \$2.3 million and \$2.4 million in the six-month periods ended October 1, 2006 and October 2, 2005, respectively.

Recently Issued Accounting Standards: In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections". This statement is a replacement of APB Opinion No. 20, "Accounting Changes", and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements", and changes the requirements for the accounting for and reporting of a change in accounting principle. This statement applies to all voluntary changes in accounting principle and to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. This statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine period-specific effects of an accounting change on one or more individual prior periods presented. In such circumstances the new accounting principle would be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable with a corresponding adjustment made to the opening balance of retained earnings for that period rather than being reported in an income statement. Further, the accounting principle is to be applied prospectively from the earliest date when it is impracticable to determine the effect to all prior periods. This statement is effective for the Company as of April 3, 2006. Adoption of this statement had no impact on the results of operations for the three and six-month periods ended October 1, 2006. Adoption of this statement could have an impact if there are future voluntary accounting changes and error corrections.

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109" ("FIN 48"), which clarifies the accounting and disclosure for uncertain tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company has not yet determined the impact this interpretation will have on our results from operations or financial position.

Table of Contents

2. *Stock-Based Compensation*: The Company has two incentive stock plans, the 1995 Stock Option Plan ("1995 Plan") and the 2006 Omnibus Incentive Plan ("2006 Plan"). The Company granted non-qualified stock options to employees and non-employee directors from the 1995 Plan through the fiscal year ended April 2, 2006. In conjunction with the approval of the 2006 Plan by the Company's stockholders at its Annual Meeting in August 2006, options may no longer be issued from the 1995 Plan.

The 2006 Plan is intended to attract and retain directors, officers and employees of the Company and its subsidiaries and to motivate these persons to achieve performance objectives related to the Company's overall goal of increasing stockholder value. The principal reason for adopting the 2006 Plan is to ensure that the Company has a mechanism for long-term, equity-based incentive compensation to directors, officers and employees. Awards granted under the 2006 Plan may be in the form of qualified or non-qualified stock options, restricted stock, stock appreciation rights ("SARs"), long-term incentive compensation units consisting of a combination of cash and shares of the Company's common stock, or any combination thereof within the limitations set forth in the 2006 Plan. The 2006 Plan is administered by the compensation committee of the board of directors, who selects eligible employees and non-employee directors to participate in the 2006 Plan and determines the type, amount and duration of individual awards.

On April 3, 2006, the Company adopted SFAS No. 123 (R), "Share Based Payment". This standard requires expensing of stock options and other share-based payments and supersedes SFAS No. 123, "Accounting for Stock-Based Compensation," and Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and related implementation guidance that had previously allowed companies to choose between expensing stock options or providing pro-forma disclosure only. SFAS 123 (R) eliminates the ability to account for stock-based compensation transactions using the intrinsic value method under APB Opinion No. 25 and instead requires that such transactions be accounted for using a fair-value-based method. In addition, the SEC issued Staff Accounting Bulletin 107 in April 2005, which provides supplemental implementation guidance for SFAS 123 (R).

The Company uses the Black-Scholes option-pricing model to determine the fair-value of stock-based awards under SFAS 123 (R), consistent with the method previously used for pro forma disclosures under SFAS No. 123. The Company elected to use the modified prospective transition method permitted by SFAS 123 (R). Under the modified prospective method, SFAS 123 (R) applies to new awards issued on or after April 3, 2006 as well as the unvested portion of awards that were outstanding as of April 2, 2006, including those that are subsequently modified, repurchased or cancelled. Under the modified prospective approach, compensation cost recognized in the three and six-month periods ended October 1, 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of, April 2, 2006 in accordance with the original provisions of SFAS No. 123. Prior periods were not restated to reflect the impact of adopting the new standard.

Prior to adoption of SFAS 123 (R), the Company measured compensation expense for its stock-based compensation plan using the intrinsic value recognition and measurement principles as prescribed by APB Opinion No. 25 and related interpretations. The Company also used the disclosure provision of SFAS No. 123. The following table illustrates the effect on net earnings and earnings per share for the three and six-month periods ended October 2, 2005 had the Company determined compensation cost based on the fair value at the grant date for its stock options under SFAS No. 123(R).

	Three months ended October 2, 2005	Six months ended October 2, 2005
Net income, as reported	\$ 1,151	\$ 883
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards	(11)	(22)
Pro forma net income	<u>\$ 1,140</u>	<u>\$ 861</u>
Income per share:		
Basic — as reported	\$ 0.12	\$ 0.09
Basic — pro forma	<u>\$ 0.12</u>	<u>\$ 0.09</u>
Diluted — as reported	\$ 0.05	\$ 0.04
Diluted — pro forma	<u>\$ 0.05</u>	<u>\$ 0.04</u>

Table of Contents

The Company recorded \$47,000 of stock-based compensation during the three and six-month periods ended October 1, 2006 as a result of the adoption of SFAS 123 (R), which had no effect on basic or diluted earnings per share. No stock-based compensation costs were capitalized as part of the cost of an asset as of October 1, 2006.

Stock Options: The following table represents stock option activity for the six-month period ended October 1, 2006.

	Weighted-average Exercise Price	Number of Options Outstanding
Outstanding, April 3, 2006	\$ 0.80	536,100
Granted	3.15	212,000
Exercised	0.58	53,251
Forfeited	0.78	31,999
Outstanding, October 1, 2006	<u>\$ 1.57</u>	<u>662,850</u>
Exercisable, October 1, 2006	<u>\$ 0.84</u>	<u>434,860</u>

During the quarter ended October 1, 2006, the Company granted 212,000 non-qualified options at the market price at the date of grant, which options vest over a two-year period, assuming continued service. The Company recognized \$20,000 of compensation expense of which \$5,000 was included in cost of products sold and \$15,000 was included in marketing and administrative expenses in the accompanying Consolidated Statements of Operations related to these stock option grants for the three and six-month periods ended October 1, 2006.

The following weighted-average assumptions were used for grants issued during the three and six-month periods ended October 1, 2006.

	Options Issued to Employees	Options Issued to Directors
Options Issued	200,000	12,000
Dividend Yield	—	—
Expected Volatility	70.00%	70.00%
Risk free interest rate	4.76%	4.79%
Expected life, years	5.75	3.25
Forfeiture rate	5.00%	5.00%

A summary of stock options outstanding and exercisable at October 1, 2006 is as follows:

Range of Exercise Prices	Number of Options Outstanding	Weighted Avg. Remaining Contractual Life	Weighted Avg. Exercise Price of Options Outstanding	Number of Shares Exercisable	Weighted Avg. Exercise Price of Shares Exercisable
\$ 0.18-0.41	28,500	3.83 years	\$ 0.23	28,500	\$ 0.23
\$ 0.65	131,000	6.25 years	0.65	123,008	0.65
\$ 0.66	12,000	3.86 years	0.66	4,002	0.66
\$ 0.71	174,750	5.57 years	0.71	174,750	0.71
\$ 1.06-2.31	104,600	3.68 years	1.45	104,600	1.45
\$ 3.15	212,000	9.62 years	3.15	—	0.00
	<u>662,850</u>			<u>434,860</u>	

Table of Contents

As of October 1, 2006, total unrecognized stock-option compensation costs amounted to \$416,000. Unvested stock option compensation costs will be recognized as the underlying stock options vest over a period of up to two years. The amount of unrecognized stock-option compensation will be affected by any future stock option grants and by the termination of any employee that has received stock options that are unvested as of such employee's termination date. The aggregate intrinsic value of both the options outstanding and the options exercisable at October 1, 2006 was \$1.0 million.

Non-vested Stock: The fair value of non-vested stock is determined based on the number of shares granted and the quoted closing price of the Company's common stock on the date of grant. All non-vested stock awards issued under the 2006 Plan vest based upon continued service.

During the three-month period ended October 1, 2006, the Company granted 375,000 shares of non-vested stock with a weighted-average grant date fair value of \$3.15. These shares have four-year cliff vesting. The Company recognized \$25,000 of compensation expense that was included in marketing and administrative expenses in the accompanying Consolidated Statements of Operations. The deferred amount is being amortized by monthly charges to earnings over the four-year vesting period.

As of October 1, 2006, the amount of unrecognized non-vested stock compensation costs amounted to \$1.2 million. The amount of unrecognized non-vested stock compensation will be affected by any future non-vested stock grants and by the separation from the Company of any employee who has received non-vested stock grants that are unvested as of such employee's separation date.

3. *Inventory:* Major classes of inventory were as follows (in thousands):

	<u>October 1, 2006</u>	<u>April 2, 2006</u>
Raw Materials	\$ 344	\$ 442
Work in Process	73	73
Finished Goods	11,629	9,227
	<u>\$ 12,046</u>	<u>\$ 9,742</u>

Inventory is net of reserves for inventories classified as irregular or discontinued of \$0.5 million at October 1, 2006 and at April 2, 2006.

4. *Financing Arrangements*

Factoring Agreement: The Company assigns the majority of its trade accounts receivable to a commercial factor. Under the terms of the factoring agreement, the factor remits payments to the Company on the average due date of each group of invoices assigned. The factor bears credit losses with respect to assigned accounts receivable that are within approved credit limits. The Company bears losses resulting from returns, allowances, claims and discounts.

Notes Payable and Other Credit Facilities: At October 1, 2006 and April 2, 2006, long-term debt consisted of:

	<u>October 1, 2006</u>	<u>April 2, 2006</u>
Revolving credit facility	\$ 7,647	\$ —
Senior subordinated notes	—	16,000
Non-interest bearing notes	4,000	8,000
Capital leases	41	58
PIK notes	—	1,077
Original issue discount	(1,074)	(1,177)
	<u>10,614</u>	<u>23,958</u>
Less current maturities	<u>28</u>	<u>36</u>
	<u>\$ 10,586</u>	<u>\$ 23,922</u>

Table of Contents

The Company's credit facilities at October 1, 2006 include the following:

Revolving Credit of up to \$22 million, including a \$1.5 million sub-limit for letters of credit. The interest rate is prime minus 1.00% (7.25% at October 1, 2006) for base rate borrowings or LIBOR plus 2.25% (7.57% at October 1, 2006). The maturity date is July 11, 2009. The facility is secured by a first lien on all assets. There was \$7.6 million outstanding at October 1, 2006. The Company had \$11 million available at October 1, 2006. As of October 1, 2006, letters of credit of \$655,000 were outstanding against the \$1.5 million sub-limit for letters of credit.

The financing agreement for the \$22 million revolving credit facility contains usual and customary covenants for transactions of this type, including limitations on other indebtedness, liens, transfers of assets, investments and acquisitions, merger or consolidation transactions, dividends, transactions with affiliates and changes in or amendments to the organizational documents for the Company and its subsidiaries. The Company was in compliance with these covenants as of October 1, 2006.

Subordinated Notes of \$4 million. The notes do not bear interest and are due in two equal installments of \$2 million each, the first of which is payable on July 11, 2010 and the second of which is payable on July 11, 2011. The original issue discount of \$1.1 million on this non-interest bearing obligation at a market interest rate of 7.25% is being amortized over the life of the notes. The remaining unamortized balance of \$1.1 million is included in the Consolidated Balance Sheet as of October 1, 2006.

The Company also had other obligations at October 1, 2006 of \$11,000 and \$29,000, which expire in May 2007 and July 2008, respectively.

As of April 2, 2006, the Company had senior subordinated notes of \$16 million with a fixed interest rate of 10% plus an additional 1.65% payable by delivery of a promissory note for which \$1.1 million had been accrued and a non-interest bearing note of \$8 million carried at a book value of \$6.8 million, net of unamortized original issue discount. These balances were refinanced on July 11, 2006 using internally generated cash and funds available under the revolving credit line described above. Concurrent with the refinancing of the senior subordinated notes, the Company settled the \$8 million non-interest bearing note and extinguished related common stock purchase warrants by issuance of the \$4 million subordinated notes described above. The refinancing resulted in a gain of \$4.1 million (\$3.7 million net of tax) reported in the three and six-month periods ended October 1, 2006. Approximately \$3.1 million of the gain was not subject to federal income tax.

Minimum annual maturities are as follows (in thousands):

<u>Fiscal</u>	<u>Revolver</u>	<u>Sub Notes</u>	<u>Other</u>	<u>Total</u>
2007	\$ —	\$ —	\$ 19	\$ 19
2008	—	—	19	19
2009	—	—	3	3
2010	7,647	—	—	7,647
2011	—	2,000	—	2,000
2012	—	2,000	—	2,000
Total	\$ 7,647	\$ 4,000	\$ 41	\$ 11,688

5. *Earnings per Share*: The weighted average number of shares outstanding on a fully diluted basis were 9,990,000 and 9,821,000 for the three and six-month periods ended October 1, 2006, respectively compared to 21,441,000 and 21,386,000 for the three and six-month periods ended October 2, 2005, respectively. The Company had issued to its previous lenders Common Stock Purchase Warrants for non-voting common stock that were convertible into common stock equivalent to 65% of the shares of the Company on a fully diluted basis at a price of 11.3 cents per share. As a result of the debt refinancing discussed above, these warrants were extinguished and are, therefore, no longer included in the Company's calculation of diluted earnings per share.

ITEM 2 — MANAGEMENT’S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company operates indirectly through its subsidiaries, Crown Crafts Infant Products, Inc., Hamco, Inc. and Churchill, primarily in the Infant and Juvenile Products segments within the Consumer Products industry. The Company’s offices are located in Huntington Beach and Compton, California; Gonzales, Louisiana; Berea, Kentucky; and Rogers, Arkansas.

The Infant and Juvenile Products segments consist of bedding, bibs, soft goods and accessories. The Company’s infant and juvenile products are marketed under a variety of Company-owned trademarks, under trademarks licensed from others, without trademarks as unbranded merchandise and with customers’ private labels. The products are produced primarily by foreign contract manufacturers, then warehoused and shipped from a facility in Compton, California. The Company also had a warehouse facility in Gonzales, Louisiana which was closed during the second quarter of fiscal year 2006. All shipments previously shipped from this warehouse are now made from Compton, California. Sales are generally made directly to retailers, primarily mass merchants, large chain stores and specialty stores. The Company also produces hand-woven adult throws, adult scarves and infant blankets. Sales of these products are generally made to major department stores, specialty shops, gift stores and designer showrooms.

The infant consumer products industry is highly competitive. The Company competes with a variety of distributors and manufacturers (both branded and private label), including Kids Line, LLC, a division of Russ Berrie and Co., Inc.; Springs Industries; Dolly Inc.; Co Ca Lo, Inc.; Carters, Inc.; Riegel Textile Corporation; Danara International, Ltd.; Luv n’ Care, Ltd.; The First Years Inc.; Sassy Inc.; Triboro Quilt Manufacturing Inc.; Gerber Childrenswear, Inc.; and Family Clubhouse, Incorporated, on the basis of quality, design, price, brand name recognition, service and packaging. The Company’s ability to compete depends principally on styling, price, service to the retailer and continued high regard for the Company’s products and trade names.

RESULTS OF OPERATIONS

The following table contains results of operations data for the three and six months ended October 1, 2006 and October 2, 2005 and the dollar and percentage variances among those periods.

	Three months ended				Six months ended			
	October 1, 2006	October 2, 2005	\$ change	% change	October 1, 2006	October 2, 2005	\$ change	% change

Table of Contents

Net Sales: Sales of bedding, blankets and accessories increased for the three-month period of fiscal year 2007 as compared to the same period in fiscal year 2006. The majority of the increase was due to sales of new private label designs amounting to \$3.6 million. Some of the new designs began shipping in the latter part of fiscal year 2006, while others began shipping during the first three months of fiscal year 2007. In addition, there was a net increase of \$0.6 million in shipments of replenishment orders. Offsetting these increases are decreases of \$2.8 million related to programs dropped in the latter part of fiscal year 2006 and \$1.0 million of shipments that occurred in the first quarter of the current year but in the second quarter of the prior year.

Sales of bedding, blankets and accessories increased for the six-month period of fiscal year 2007 as compared to the same period in fiscal year 2006 as a result of shipments of new designs amounting to \$6.0 million and a net increase in replenishment shipments of \$0.4 million, offset by a decrease of \$4.1 million related to programs dropped in the latter part of fiscal year 2006.

Bib and bath sales remained constant for the three-month period of fiscal year 2007 as compared to the same period in fiscal year 2006. Bib and bath sales increased for the six-month period due to sales of new designs of \$1.3 million offset by a net decrease in replenishment orders of \$0.6 million.

Churchill has experienced a continuous decline in sales since fiscal year 2000. As a domestic manufacturer of home furnishings and infant blankets, Churchill has been negatively impacted by multiple factors. The number of small specialty stores, Churchill's primary customers, has decreased. Also, competition has increased, as imported luxury hand woven items can be sold at lower prices. The decline in the gift industry continues to have a negative impact on customer sales. Management responded to these challenges by initiating measures to reduce costs and improve sales. Although cost reductions were achieved, sales have not increased. Churchill's sales for the three and six-month periods of fiscal 2007 declined by 10% and 15%, respectively, as compared to the same periods in the prior year.

Gross Profit: Gross profit increased in both amount and as a percentage of net sales for the three and six-month periods of fiscal year 2007 as compared to the same periods in the prior year. Favorable variances in sales activity as compared to budget caused an over absorption of overhead which is allocated to inventory upon purchase and then transferred to cost of sales as goods are sold. The over absorption caused gross margin to increase by approximately 1.4% and such variance should reverse itself over the remaining quarters as all overhead costs are fully absorbed over the course of the year. The remaining improvement in gross margin is due to significant changes in our sourcing and distribution strategies subsequent to the first quarter of fiscal year 2006, which ultimately resulted in reduced purchase prices for merchandise and increased utilization of existing distribution facilities. During an eighteen month period beginning in early 2006, the company relocated approximately 50% of its production from Southern China to more cost competitive suppliers in Northern China. During the second quarter of fiscal year 2006, the Company also completed the transition from domestic manufacturing and transferred production to more cost-effective Asian suppliers. Additionally, the Gonzales, Louisiana distribution center was relocated to Compton, California during August 2006. The aforementioned changes have had a positive impact on gross margin as both the cost of product and the cost to handle the merchandise was reduced.

Marketing and Administrative Expenses: Marketing and administrative expenses for the three and six-month periods of fiscal year 2007 increased slightly as compared to the same periods of fiscal year 2006. As a percentage of net sales, marketing and administrative expenses increased slightly for the three-month period and decreased for the six-month period. As discussed in Note 2 to the Financial Statements, the Company granted stock options and non-vested stock during the second quarter of the current year. Both the three and six-month periods of fiscal year 2007 include \$42,000 of compensation expense related to these grants. Also, additional incentive compensation of \$246,000 and \$437,000 are recorded in the three and six-month periods of fiscal year 2007, respectively, as compared to the prior year periods. In addition, the six-month period of the current year includes the write-off of \$90,000 in goodwill associated with Churchill. The decrease in marketing and administrative expenses as a percentage of net sales excluding the aforementioned factors is a direct result of the increase in net sales.

Interest Expense: The decrease in interest expense for the three and six-month periods of fiscal year 2007 as compared to fiscal year 2006 is due to a lower average debt balance and lower interest rates primarily as a result of the debt refinancing on July 11, 2006 (see Note 4). The Company had \$10.6 million in total debt at October 1, 2006, compared to \$23.5 million at October 2, 2005.

Table of Contents

Gain on Debt Refinancing: On July 11, 2006 the Company refinanced its credit facilities. In connection with the refinancing, non-interest bearing subordinated indebtedness was reduced from \$8 million to \$4 million. The \$8 million debt was carried on the Company's books net of an unamortized discount of \$1 million immediately before the refinancing. The new \$4 million debt was initially recorded net of an original issue discount of \$1.1 million. The Company recorded an approximate pre-tax gain of \$4.1 million on the subordinated debt reduction.

Other Income — Net: Other income is composed primarily of interest income received on the Company's overnight investment sweep. The increase in interest income is due to a higher average cash balance in the first quarter of fiscal year 2007 than in the same period of fiscal year 2006. The Company had \$7.8 million cash on July 11, 2006, \$7.4 million of which was used to reduce debt in connection with the July 11, 2006 debt refinancing.

Income Tax Expense: The significant increase in income tax expense in the three and six-month periods of fiscal year 2007 as compared to the same periods of fiscal year 2006 is due to improved profitability and the full recognition of federal income tax expense now that the deferred tax valuation account was removed in the fourth quarter of fiscal year 2006. Due to uncertainty as to its ultimate realization, prior to the fourth quarter of fiscal year 2006 the benefits of the Company's net operating loss carryforwards were only being recognized as profits were being generated. As a result, tax expense prior to the fourth quarter of fiscal year 2006 included no federal tax expense on a net basis but included only state and local income taxes. The unrecognized benefit of the net operating loss carryforwards was reflected in a deferred tax asset valuation account. In the fourth quarter of fiscal year 2006, management determined that due to taxable earnings generated in recent years, it was more likely than not that the benefit of the net operating loss carryforwards would be realized over time prior to their expiration and, consequently, the deferred tax asset valuation account was removed at April 2, 2006. As a result of the removal of the deferred tax valuation allowance, the Company's income tax expense in periods subsequent to the third quarter of fiscal year 2006 will include federal as well as state and local income taxes.

Exclusive of the gain on debt refinancing, the effective tax rate for the three and six-month periods ended October 1, 2006 was approximately 40.0%. Approximately \$3.1 million of the gain on debt refinancing related to the reversal of previously recognized debt-related expenses that were not deductible for federal tax purposes and consequently, the gain from the reversal of such expenses was not taxable. The debt-related expenses pertained to the amortization of the original issue discount on the previously issued non-interest bearing subordinated debt. Total tax expense related to the gain on debt refinancing was \$373,000 representing an effective tax rate of 9.2%.

Net Income: The gain on debt refinancing, net of tax, amounted to \$3.7 million (\$0.38 per diluted share) in the three and six-month periods ended October 1, 2006. Exclusive of the gain on debt refinancing, net of tax, net income was \$1.7 million for the three-month period ended October 1, 2006 and \$2.6 million for the six-month period ended then ended. The improvements in net income as compared to the comparable year amounts are due to the factors explained above.

FINANCIAL POSITION, LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operating activities was \$5.7 million for the first six months of fiscal year 2007 compared to net cash provided by operating activities of \$4.3 million for the first six months of fiscal year 2006. The increase in cash provided by operating activities is primarily due to increased net income and changes in accounts payable and accrued liability balances offset by changes in accounts receivable and inventory balances. Net cash used in investing activities was \$107,000 in the first six months of fiscal year 2007 and \$338,000 in the prior year period. The decrease in cash used for investing activities is due to capital expenditures in the prior year related to the conversion of one of the Company's subsidiaries to a software system currently used by other locations. Net cash used in financing activities was \$9.4 million compared to net cash used in financing activities of \$4.5 million in the prior year period. In July 2006, the Company refinanced its credit facilities using cash of \$7.4 million to reduce debt. Subsequent to the refinancing, the Company further reduced the revolving credit facility by \$2.0 million. In the prior year, cash was used to pay in full the Company's \$4.5 million senior notes.

The Company's ability to make scheduled payments of principal, to pay the interest on or to refinance its maturing indebtedness, to fund capital expenditures or to comply with its debt covenants will depend upon future performance. The Company's future performance is, to a certain extent, subject to general economic, financial, competitive, legislative, regulatory and other factors beyond its control. Based upon the current level of operations, the Company believes that cash flow from operations together with revolving credit availability will be adequate to meet liquidity needs.

Table of Contents

To reduce its exposure to credit losses and to enhance its cash flow, the Company assigns the majority of its trade accounts receivable to a commercial factor. The Company's factor establishes customer credit lines and accounts for and collects receivable balances. Under the terms of the factoring agreement, which expires in July, 2009, the factor remits payments to the Company on the average due date of each group of invoices assigned. If a customer fails to pay the factor on the due date, the Company is charged interest until payment is received. The interest rate is prime minus 1.0%, which was 7.25% at October 1, 2006. The factor bears credit losses with respect to assigned accounts receivable that are within approved credit limits. The Company bears losses resulting from returns, allowances, claims and discounts. The Company's factor at any time may terminate or limit its approval of shipments to a particular customer. If such a termination occurs, the Company may either assume the credit risks for shipments after the date of such termination or cease shipments to such customer.

Churchill is continuing to implement additional cost reductions while pursuing new sales avenues in the hospitality and craft markets. Currently, management is not able to determine if Churchill's decline in sales can be reversed and/or if costs can be reduced so that Churchill can operate profitably. If the existing trend cannot be reversed, then a sale or liquidation of Churchill may occur. Management is currently determining the value of Churchill and assessing the financial impact of a potential sale or liquidation. Goodwill associated with Churchill of \$90,000 was written-off in June 2006.

FORWARD-LOOKING INFORMATION

This Quarterly Report contains forward-looking statements within the meaning of the Securities Act of 1933, the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. Such statements are based upon management's current expectations, projections, estimates and assumptions. Words such as "expects," "believes," "anticipates" and variations of such words and similar expressions identify such forward-looking statements. Forward-looking statements involve known and unknown risks and uncertainties that may cause future results to differ materially from those suggested by the forward-looking statements. These risks include, among others, general economic conditions, including changes in interest rates, in the overall level of consumer spending and in the price of oil, cotton and other raw materials used in the Company's products, changing competition, changes in the retail environment, the level and pricing of future orders from the Company's customers, the Company's dependence upon third-party suppliers, including some located in foreign countries with unstable political situations, the Company's ability to successfully implement new information technologies, customer acceptance of both new designs and newly-introduced product lines, actions of competitors that may impact the Company's business, disruptions to transportation systems or shipping lanes used by the Company or its suppliers, and the Company's dependence upon licenses from third parties. Reference is also made to the Company's periodic filings with the Securities and Exchange Commission for additional factors that may impact the Company's results of operations and financial condition. The Company does not undertake to update the forward-looking statements contained herein to conform to actual results or changes in the Company's explanations, whether as a result of new information, future events or otherwise.

ITEM 3 — QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates on debt, changes in commodity prices, changes in international trade regulations, the concentration of the Company's customers and the Company's reliance upon licenses. The Company's exposure to interest rate risk relates to the Company's floating rate debt, of which there was \$7.6 million outstanding at October 1, 2006 and no balance outstanding at April 2, 2006. Each 1.0 percentage point increase in interest rates would impact pretax earnings by \$76,000 at the debt level of October 1, 2006. The Company's exposure to commodity price risk primarily relates to changes in the price of cotton and oil, which are the principal raw materials used in a substantial number of the Company's products. Also, changes in import quantity allotments can materially impact the availability of the Company's products and the prices at which those products can be purchased by the Company for resale. Additionally, the Company's top three customers represent 79% of gross sales, and 42% of the Company's gross sales is of licensed products. The Company could be materially impacted by the loss of one or more of these customers or licenses.

ITEM 4 — CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report, as required by paragraph (b) of Rules 13a-15 or 15d-15 of the Exchange Act. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

During the quarter ended October 1, 2006, there was not any change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 of the Exchange Act that has materially affected, or is reasonably likely to materially affect, the Company's control over financial reporting.

PART II — OTHER INFORMATION

Item 1 — Legal Proceedings

From time to time, the Company is involved in various legal proceedings relating to claims arising in the ordinary course of its business. Neither the Company nor any of its subsidiaries is a party to any such legal proceeding the outcome of which, individually or in the aggregate, is expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A — Risk Factors

There have been no material changes to the risk factors disclosed in Item 1A. of Part 1 in our Form 10-K for the year ended April 2, 2006.

Item 2 — Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3 — Defaults Upon Senior Securities

None.

Item 4 — Submission of Matters to a Vote of Security Holders

None.

Item 5 — Other Information

None.

CERTIFICATION

I, E. Randall Chestnut, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended October 1, 2006 of Crown Crafts, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Amy Vidrine Samson, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended October 1, 2006 of Crown Crafts, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
